Stocking of Fertilizers at Plant Sites

1311. SHRI SATISH PRADHAN: Will the Minister of CHEMICALS & FERTILISERS be pleased to state:

(a) whether it is a fact that a huge stock of fertilizers have piled up at various plant sites; if so, the reasons therefor;

(b) whether such a situation has created imbalance between supply and demand; if so, what action Government propose to take; and

(c) what effect the non movement of fertilizers will have on crop situation since the farmers have already suffered due to erratic monsoon?

THE MINISTER OF STATE IN THE MINISTRY OF CHEMICALS AND FERTILISERS (SHRI EDUARDO FALERIO): (a) At present, urea is the only fertilizer under price, distribution and movement controls. The estimated stock of urea in various plant silos, as on 1.8.95, was 3.02 lakh tonnes. Only at a few plants, the stock have accumulated in excess of the normal level due to some constraints in the movement by rail.

(b) and (c) Steps have been taken to augment indigenous production, imports as well as despatches. The availability of urea is, by and large, comfortable in the country relative to the current demand. No problem is anticipated in meeting the requirement of urea during the current Kharif season. The availability of decontrolled fertilizers is also reported to be comfortable.
